

Business Continuity Planning

Customer Summary

HODGES CAPITAL MANAGEMENT

HODGES CAPITAL MANAGEMENT, Inc. has developed a Business Continuity Plan for how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us - If after a significant business disruption, you cannot contact us as you usually do at 888-878-4426, please visit our website at www.hodgescapital.com. We will post updated information on this website to our clients.

If you cannot access us through either of those means, you should contact the custodian on your account for instructions on how they may provide prompt access to funds and securities, enter orders and process other trade related, cash and security transfer transactions.

Our Business Continuity Plan - We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operation assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses: data back-up and recovery; all mission critical systems; financial and operations assessments; alternative communications with customers, employees and regulators; alternate physical location of employees; critical supplier, contractor, bank and counterparty impact; regulatory reporting; and assuring our customers prompt access to their funds and securities if we are unable to continue our business.

Hodges Capital Management backs up our important records. While every emergency situation poses unique problems based on external factors, such as time of day and severity of disruption, our objective is to restore operations and be able to complete existing transactions and process new transactions as quickly as possible. Your orders and requests for funds and securities could be delayed during this period.

Varying Disruptions - Significant business disruptions can vary in their scope, such as only our firm, a single building housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or a building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within a minimal amount of time. In a disruption affecting our business district, city, or region, we will transfer our operations to a site outside of the affected area and recover and resume business within a minimal amount of time. In either situation, we plan to continue in business and notify you through our website www.hodgescapital.com. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's access to their funds and securities.

For more information - If you have questions about our business continuity planning, you can contact us at 888-878-4426.
